LEARNING ENGINEER | LEARNING TECHNOLOGY | FRONT-END DEVELOPMENT

Developer who builds the technical layer of learning programs: Python automation for LMS backends, React and TypeScript front ends, and the platform work that connects instructional design to engineering. Psychology and instructional design background means I can talk to both sides.

EXPERIENCE

Instructional Designer / Learning Technologist

WeYouth (501(c)(3) nonprofit), North Salt Lake, UT | March 2026 - Present

- Evaluated learning management systems against organizational requirements and delivered the platform recommendation the nonprofit adopted and runs on
- Implemented the platform end to end: course and module architecture, assessment configuration, and cohort enrollment across three learner tracks
- Own technical support for the platform, from administrator onboarding to resolving learner and coach access issues

Learning Technology Specialist (Contract)

National Association of Certified Valuators and Analysts, Sandy, UT | April 2023 - Aug 2023

- Wrote Python automation replacing manual backend data entry for the CVA and MAFF certification programs
- Converted and processed training video for continuing-education delivery
- Migrated instructional content off legacy platforms

Help Desk Specialist

All Season Control Cover, Salt Lake City, UT | Jan 2021 - May 2024

- Diagnosed user-reported problems and implemented fixes, translating technical detail into plain guidance

SELECTED TECHNICAL WORK

LMS implementation: Platform evaluation, course architecture, assessment and enrollment configuration, ongoing administration

Course processing automation: Python scripts replacing hand-entry of course data at a certification body

This portfolio site: React 18, TypeScript, Vite, Tailwind, with a typed content layer and dual staging/production deploys

Variable interval timer: Behavioral learning tool applying spaced-interval reinforcement for ABA practice

SKILLS

Languages: Python, JavaScript, TypeScript, C++, HTML/CSS

Frameworks: React, Node.js, Tailwind CSS, Vite

Learning platforms: LearnWorlds, Canvas LMS, Articulate Storyline 360, SCORM packaging

Tools: Git, VS Code, Camtasia, Adobe Creative Suite

EDUCATION

M.Ed., Instructional Design & Educational Technology: University of Utah, August 2023 - May 2025. GPA 3.9

B.S., Psychology: Brigham Young University - Idaho, 2012 - 2018. Certificate in Programming
